

# KIDS CLUB NEWS JANUARY 2023

## Welcome Back!

*Kids Club 207-780-1421*  
*Email: Brigitte@biccc.org*

It's a brand New Year and we are looking forward to having everyone back and ready to go!

## Weather Watch!

*Administrative Office*

*Mailing Address"*

*502 Cave Ave. B.I 98110*  
*(206) 842-6525*

December's weather was full of surprises this year and January may not be any different! Emergency and poor weather conditions may still come our way. In case of these untimely circumstances, please have a family plan covering actions to take in emergency situations. Update your family phone numbers if changes occur and assure that emergency and contact information is up to date.

*Sally Nelson, Bookkeeper*  
*Accounts@biccc.org*

If any closure or emergency occurs, we will notify you as soon as we possibly can via Mail Chimp, BICCC email, or personal phone calls. If you have any questions, please call (206) 780-1421 or email Brigitte@biccc.org.

## What's Been Happening!

### Important Dates to Remember!

January 6th (Friday)  
BICCC First Friday @ Big Kids  
5:30 PM to 8 PM

January 16th (Monday)  
BISD & BICCC Closed  
Martin Luther King Day Observed  
BICCC Staff Training

Our curriculum and activities are known for exploring and focusing on the suggestions and the varied interests of the children attending the program. Generally, many of our themes last about a week; but encouraged by the exuberance of our children, the November and December line-ups were an exception to the norm!

- Through individual and team building exercises, our Amusement Parks Around the World had our Kids Clubbers leaning the fundamentals of gravity and kinetic energy
- Our week of Gary Larson was insightful, funny and amusing as we learned about the artist, his background and what inspired him to draw those crazy comic panels that make you laugh out loud!
- Our two week focus on Unusual Animal Friendships was interesting and thought provoking as we learned the differences in what is considered an animal friendship and animal partnerships between species.
- Creating faceless dolls and learning the language and customs of the Dominican Republic topped off our month of December.

The month of January will get child imaginations growing with Caves of the World, The Art of the Short Film, Concept Art and the Basics of Mechanical Engineering. Look for pictures on our web site!
